2B. BROODMARES & STALLIONS (continued)

EMBRYO TRANSFERS: For an embryo transfer to be eligible for Texas Accreditation, it must be the genetic offspring of an ATB Broodmare and meet all accreditation requirements. The RECIPIENT MARE must be permanently identified (branded or tattooed) and permanently domiciled in Texas.

MULTIPLE FOALS: Multiple foals conceived in the same year by a single broodmare are eligible for accreditation provided the mare was bred to an ATB stallion at least every other breeding and all other requirements for accreditation are satisfied. TQHA may require a report of mares bred be submitted to TQHA to verify eligibility for accreditation. An ATB Broodmare that produces multiple foals in a single year using the transferred embryo or oocyte process must submit to Texas Quarter Horse Association a TQHA EMBRYO/OOCYTE TRANSFER REPORT by December 31 of the year of conception.

If the multiple foals are the result of a transferred embryo, all foals sired by an ATB stallion are eligible. If any of the foals are sired by a non-ATB Stallion, only one of the foals sired by a non-ATB Stallion may be accredited. The owner of the ATB Broodmare at the time of conception for foals sired by a non accredited stallion must notify TQHA and select which foal is to be accredited and is considered the breeder for purposes of breeder awards. In such instance, the breeder must submit to TQHA a notarized TQHA FOAL AUTHORIZATION FORM stating which foal shall be eligible for Texas Accreditation and this form must be submitted on or before August 15 of the weaning year. In the event the breeder does not or cannot complete the TQHA FOAL AUTHORIZATION FORM, the first foal submitted for Texas Accreditation shall be considered the only foal eligible.
